## Work Experience

### Packaged App Development Analyst

2022/11 – present

Accenture

- Designed and developed scalable web applications using **React.js, Redux, and Next.js**, ensuring seamless integration with UI/UX designs and backend services.
- Implemented **server-side rendering (SSR)** and **static site generation (SSG)** with Next.js, enhancing page load speed and SEO.
- Enhanced data flow using **SWR** for caching strategies, reducing API calls and improving data retrieval speed.
- Led **performance optimization initiatives** by implementing **lazy loading** and modularizing code, leading to a 20% reduction in load times.
- Worked on Object-Oriented JavaScript (**OOJS**) to structure and modularize code for maintainability.
- Developed and enhanced **React Native** application.
- Developed fully **responsive and cross-browser compatible** web applications using **Tailwind CSS, SASS, and Styled Components**, ensuring optimal performance on both mobile and desktop.
- Integrated front-end components with **RESTful and GraphQL APIs**, using asynchronous programming techniques to enhance data fetching efficiency.
- Implemented **secure silent authentication** using **@azure/msal-react**, enhancing user experience and security through Microsoft Authentication Library (MSAL).
- Created and maintained **unit and integration tests using Jest and Playwright**, reducing bug reports by **40%** and increasing overall code quality by **25%**.
- Managed version control and collaborated on feature branches using **Git and GitHub**, ensuring smooth deployment in **CI/CD** environments.

### Application Development Associate

2020/11 – 2022/10

Accenture

- Assisted in the development of **3+ responsive web applications**, ensuring seamless user experience across multiple devices.
- Implemented reusable **React components** and optimized rendering strategies to improve application performance.
- Collaborated with backend teams to design and refine **GraphQL schemas**, ensuring optimal query efficiency and alignment with front-end requirements.
- Performed **code reviews** and enforced best practices for maintainable, scalable JavaScript code.
