🪪 ABOUT ME

As a front-end developer with a passion for creating engaging, user-friendly web applications, I am dedicated to delivering well-designed products. With expertise in HTML, CSS, and JavaScript, as well as experience with popular frameworks such as ReactJS, I am passionate about developing responsive, dynamic, and feature-rich web applications.

💼 PROFESSIONAL EXPERIENCE

2022 – present

Packaged App Development Analyst, *Unilever, Accenture*
- Worked on dynamic development and enhancement of a **React Native** application.
- Implemented seamless and user-friendly navigation flows within the application using **React Navigation**, enhancing overall user experience and ease of navigation.
- Collaborated on the implementation of search and filtering functionalities, optimizing the user's ability to discover products easily.
- Enhanced application responsiveness across various devices through meticulous CSS optimization and styling refinements.
- Implemented accessibility features across application components to ensure an inclusive and user-friendly experience.
- Developed and maintained unit test cases using **Jest** for comprehensive testing of application components.
- Collaborated closely with cross-functional teams including UX/UI designers, backend developers, and product managers to achieve seamless integration and optimal user experience.

2020 – 2022

Application Development Associate, *Shopdisney, Accenture*
- Implemented **RESTful APIs** to enable efficient data retrieval and manipulation in the frontend.
- Worked in a to build a scalable and modular ReactJS application that utilized components, **forms**, **events**, **keys**, and **router** to optimize performance and functionality.
- Demonstrated proficiency in reworking single page applications using React and **React-Router** through coursework and personal projects, resulting in a comprehensive understanding of the framework and its capabilities.
- Provided exploratory testing for the systems, worked closely with QA engineers to identify potential issues and improve the usability of applications
- Demonstrated proficiency in bug tracking and reporting systems such as **JIRA**, ensuring that all issues were tracked and resolved in a timely manner.

🧠 SKILLS

ReactJS	Javascript
HTML	CSS
OOP	REST API
Sass	React-Redux
React Native	Typescript

🎓 EDUCATION

09/2016 – 09/2020

Bachelor of Technology, *Galgotias College of Engineering and Technology*
Information and Technology

2015 – 2016
Lucknow, India

Intermediate, *The Millennium School - 7cgpa*

📁 PROJECTS

03/2023

Portfolio
- Created using HTML , CSS, Javascript and SASS

05/2021

Deliciousss, *Recipe App* ⧉
- A single page web application which provides the recipes according to the user input.
- Used ReactJS, HTML, CSS and Javascript to build the application.
- Used async await to fetch data from an external API.
- Used styled-components library to add dynamic styling to the application.
- Used React Router to define multiple routes in the application.
